

## Workshop Intro to Data Science Details

Workshop date: Thursday 25 March 2021

Before this workshop, please complete practice set 1 (intro to Python). This practice set is located here:

<https://github.com/accountinglab/audit-analytics/blob/main/practice-set-1.pdf>

10.00: Intro to Data Science (via Zoom or Teams)

Please follow local instructions to join this online meeting.

At this meeting we will go through the slide deck located here:

<https://github.com/accountinglab/audit-analytics/blob/main/lecture.pdf>

*If you cannot login to this Zoom meeting due to technical problems, this is no problem, in that case please study the lecture slides by yourself.*

After this meeting, please complete practice set 2. This practice set is located here:

<https://github.com/accountinglab/audit-analytics/blob/master/practice-set-2.pdf>

15.00: Q&A Session (via Zoom or Teams, optional)

Please follow local instructions to join this online meeting.

This is an optional online meeting for those who have had issues with completing practice set 2. If you have completed practice set 2 successfully, there is no need to join this meeting.

When you have completed practice set 2, please complete the assessment form. This form is located here:

<https://github.com/accountinglab/audit-analytics/blob/master/assessment-form.docx>

(click "Download" to download the Word file).

17.00 Deadline submission

Please submit your assessment form to UFORA – assignments – Part 2.1 Assessment forms.
